

Adoption Fee

Dogs

Dog £200

Puppy (up to age 6 months) £250

Cats

Cat or kitten £100

Before adoption we provide each animal with a health check-up, neutering, first vaccination, flea and worm treatments and microchipping, however this is not an exhaustive list.

On the day of adoption, we will ask you to make a financial contribution towards the cost of adopting your pet and the above treatments, helping us to rehabilitate and rehome many animals each year. You will also receive four weeks' free pet insurance from PetPlan (terms & conditions apply).

As a guide, if you were to pay for these treatments for an animal purchased privately, you would pay between £170 and £300 on top of the purchase price (neutering costs vary depending on the size, type and gender of the animal).
