Before adoption we provide each animal with a health check-up, neutering, first vaccination, flea and worm treatments and microchipping, however this is not an exhaustive list.

On the day of adoption, we will ask you to make a financial contribution towards the cost of adopting your pet and the above treatments, helping us to rehabilitate and rehome many animals each year.

You will also receive four weeks' free pet insurance from PetPlan (terms & conditions apply).

As a guide, if you were to pay for these treatments for an animal purchased privately, you would pay between £260 - £580 on top of the purchase price.
